Summary

As a software engineering leader with extensive experience in
developing and delivering new and innovative SaaS Platform and
CMS products, I have been influential in significantly increasing
customer value across multiple platforms.

I have over 9+ years of experience in leading and mentoring cross-
functional, diverse teams that have gone on to be high-performing
achieving significant results both individually and as a team. I know
the mark of a great leader is one who is willing to continually invest
in their team, which is why I make it a point to ensure there is always
an emphasis on continuous improvement for continual success. Now
studying data analysis and prediction using AI algorithms.

Skills: ASP.NET , C# .NET Core MVC, HTML5, CSS3, JavaScript,
jQuery, Python, MSSQL, ElasticSearch, API, Microservices, AZURE

Some of my key achievements include:
8+ years of experience in leading and mentoring the team in
ASP.NET technology
Developed SaaS based site builder where users can get the
websites on demand for different products with different themes.
It includes dynamically deployment of products across multiple
VM (Linux/Windows): hosting websites in IIS/NGINX, deploying
database, managing mail server, managing scheduler services using
APIs and Microservices.
Organize stand up meetings as scrum master, help the team to
meet the project deadlines.
Developed open source .net CMS and CMF that can easily fulfill
any organizational website need and even add their needed feature
easily.

Implemented design and template prediction of websites using AI algorithms and scrappers.
Perform the CI-CD of products into testing, staging, and production server helping the team for quick test, review, demo as well as update the production products.
Solution Development and Delivery: Analyze technical and functional design requirements; designs and codes superior technical solutions; identifies system deficiencies and recommends solutions.

My area of expertise:
- Strategic Team Leader
- System Analyst
- Specialised in CMS development
- Passionate to learn new everyday
- Focused on the smooth delivery of products
- Enthusiastic data scientist

I am interested in connecting with other like-minded professionals in my field. Feel free to contact me through this profile if you wish to connect.
